

# **Addressing and Advancing Progress in the Delivery of High-Quality Cancer Care: A Workshop**

**Julie Gralow, MD, FASCO, FACP**  
**Chief Medical Officer, ASCO**  
**Member, National Cancer Policy Forum**

October 5, 2023

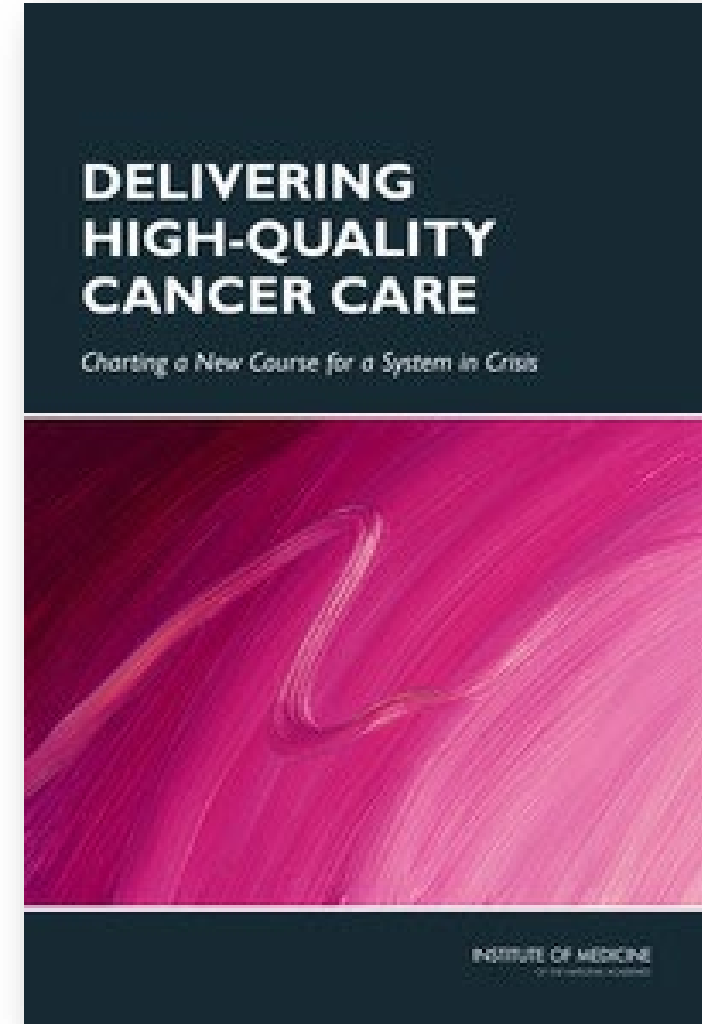

# Institute of Medicine 1999:

***“The NCPB has concluded that for many Americans with cancer, there is a wide gulf between what could be construed as the ideal and the reality of their experience with cancer care.”***

# 2013: Not Better

***“The Cancer Care Delivery System is in Crisis”***

***“Cancer care is often not as patient-centered, accessible, coordinated, or evidence based as it could be.”***

# Medicare has been a Major Driver Of ASCO Quality Care Programs (Adds more than “Quality”).....

- 2015 Medicare Access and CHIP Reauthorization Act (MACRA)
- From piecework to performance-based payment
- Goal of 100% claims paid in value based arrangements
- Private payers participating in/building own models
- Greater patient voice through employer groups and others

# Result: Our System Is Under Pressure to Transform

- Practice data management/analysis
- Compliance
- Administrative burden
- Clinical quality improvement
- Operational efficiency
- Care coordination and triage
- Patient experience
- Health system relationships
- Cost
- Reimbursement deliverables (APMs)
- Ability to manage risk
- Pressure to consolidate
- Transformation investment
