Our Challenge is that every school in England will ...

Have a **Young Carers Champion** in school so that every young carer has a trusted adult in school they can go to if things are difficult, or they need more support.

Raise awareness of young carers with staff and pupils to help ensure young carers are identified and they know what support is available.

Have a **young carers agreement / policy** (ideally designed with young carers) so that every young carer knows what support is available to them in their school.

Ensure **young carers are correctly identified** in their school pupil information system, monitor indicators such as attendance and attainment alongside other potentially vulnerable groups of pupils and include young carers within enrolment/transitions processes.

Have **linked in with their local young carer service** so they know what support is available for young carers outside of school.
