

Session III: Bioethical Considerations for Transgenic and Chimeric Nonhuman Primate Models in Neuroscience Research

10/04/2018

THE UNIVERSITY
of
WISCONSIN
MADISON

Marina E. Emborg, M.D. Ph.D.

Professor of Medical Physics

Director, Preclinical Parkinson's Research Program

Wisconsin National Primate Research Center

Compared to “traditional” NHP neuroscience research...

...does animal use and care need to be different for “transgenic & chimeric” NHP research?

...does the scientific justification need to be different?
