

Workshop on Rebuilding Research, Education, and Innovation in Ukraine

Welcome to our workshop! Interpretation is available to all participants.

To access this feature, please click on the interpretation menu in the bottom of the Zoom screen:

Please choose either English or Ukrainian.

- If you choose neither, you will hear NO language interpretation.
- If you choose English, you will ONLY hear English, either as spoken by the English speaker or as translated from Ukrainian by the interpreter.
- If you choose Ukrainian, you will ONLY hear Ukrainian, either as spoken by the Ukrainian speaker or as translated from English by the interpreter.
- Low volume audio from participants in the other language is provided. It can be disabled by clicking the “Mute Original Audio” button.

PLEASE NOTE:

- Each **speaker must select the language they are speaking/listening to**. They will then be heard by all participants, either in their own voice by those who have also chosen that language, or by the interpreter for those who have chosen the other language.
- Once you choose a language, **you will not be heard by those who selected the other language**. They will only hear the interpreter who is translating what you say into that language.
