

# Patient Advocate Activity in CALGB 1995

---

1 individual (Deb Collyar) on the Breast Committee

# Patient involvement in clinical trials

## Trial Development

Concept + protocol development + patient burden	<b><i>Relevance</i></b>
Adaptive design + endpoints + eligibility + procedures	<b><i>Sanity check</i></b>
Recruitment: patient issues + site challenges & solutions + referrals	<b><i>Communication</i></b>
Diversity plans + systemic racism + disabilities	<b><i>Representation</i></b>
Informed consent: plain language + correlative science	<b><i>Respect &amp; information</i></b>

# Patient Advocate Activity in Alliance 2025

---

**24** individuals involved in **8** disease committees, **17** scientific/modality committees, DSMB and leadership (e.g., Board of Directors, Assoc. Group Chair for Advocacy)

Participants in concept and protocol reviews,  
development of public results summaries and  
recruitment of committee leaders

Deb Collyar still serves on **5** committees!

Special thanks to Patty Spears for this information!
