

CDC and ATSDR's Response to the Red Hill Bulk Fuel Storage Facility Release Event

September 22, 2025

Webinar for the National Academies Committee on Clinical Follow-Up and Care for Those Affected by the Red Hill JP-5 Releases

The findings and conclusions in this report are those of the authors and do not necessarily represent the official position of the U.S. Centers for Disease Control and Prevention and the Agency for Toxic Substances and Disease Registry.

Agency for Toxic Substances and Disease Registry

- **Non-regulatory federal public health agency**
- **Mission:** ATSDR protects communities from harmful health effects related to exposure to natural and man-made hazardous substances.
- **We do this by:**
 - Responding to environmental health emergencies;
 - Investigating emerging environmental health threats;
 - Conducting research on the health impacts of hazardous waste sites; and
 - Building capabilities of and providing actionable guidance to state and local health partners.
- **Regional offices provide national presence**

CDC's National Center for Environmental Health - Division of Laboratory Sciences

- **Develops laboratory methods to diagnose or assess risk of disease**
- **Tests for exposure to harmful chemicals**
- **Helps other labs improve their tests**
- **Responds to public health emergencies**

CDC/ATSDR Red Hill Response

- **Assessment of Chemical Exposures (ACE) health investigations**
- **Emergency response**
biomonitoring technical assistance
- **Public health assessment activities**
